Customized Skin Care

At Skin Wellness Center our products are selected to suit your individual needs whether your desire is a simple or multi-step skin care regimen. A consultation with our skin care specialist will focus on analyzing your skin type and choosing products that will be the most beneficial. SWC has a diverse array of products from Skin Medica, IS Clinical, Elta, Vivant, Skin Better Science and our personalized SWC green tea line for more sensitive skin.

Our unique tiered approach is designed to combine pharmaceutical grade products with your appropriate skin care regimen along with optional peels, microdermabrasion, and hydrafacials to maximize results. Our goal is to make your skin the best it can be.

Customized Programs are for all skin types including dry to oily, acne, rosacea, sun-damaged, and those with aging changes and pigmentation.

Our SWC Skin Brightening System for pigmentation is affordable compared to other brands and gives great results.

Call today and schedule a cosmetic consultation with our experienced cosmetic consultant and medical esthetician to formulate a program that will achieve optimal results.

M.D. Rejuvenation Procedures

Botox/Dysport Injections - For relaxing facial muscles to diminish frown lines, crow’s feet, forehead creases, nasal bunny lines and gummy smile. In combination with fillers can be used to achieve optimal results.

Fillers - A variety of short acting to semi-permanent fillers are offered to diminish deeper lines and scars, and fit individual needs:

Juvederm	Belotero
Radiesse	Restylane

Sculptra Revolumizing - The “liquid facelift” to restore facial volume loss and lift the skin resulting in a fresher and more youthful appearance. This is a non-surgical injectable product with no down time. A series of treatments are necessary for optimal results.

*** Latest addition ***

Inmode Evoke Facial Remodeling System
The **only** HANDS-FREE facial tightening device to reduce jowl and chin heaviness. Innovative thermal facial remodeling.

Photodynamic Therapy (PDT) - Skin retexturing procedure utilizing amino-levulanic photosensitizer and LED light activation to stimulate collagen, refresh skin and smooth texture.

Sclerotherapy - For the reduction of spider veins on the legs, injections are performed to the affected areas followed by the use of support hose to achieve optimal results.

Specialty Services

Coolsculpting - An FDA-cleared non-invasive procedure to permanently reduce those stubborn bulges of fat that are resistant to diet and exercise. It is non-surgical and has no downtime. Freezing the fat cells destroys them and they are eliminated from the body through the lymphatics. Let us create an individualized treatment plan tailored just for you. ***Coolsculpting consultations are complementary.*** Call today to schedule with our experienced staff performing Coolsculpting since 2012.
